How to Install CleanPrint Plugin for Word Press
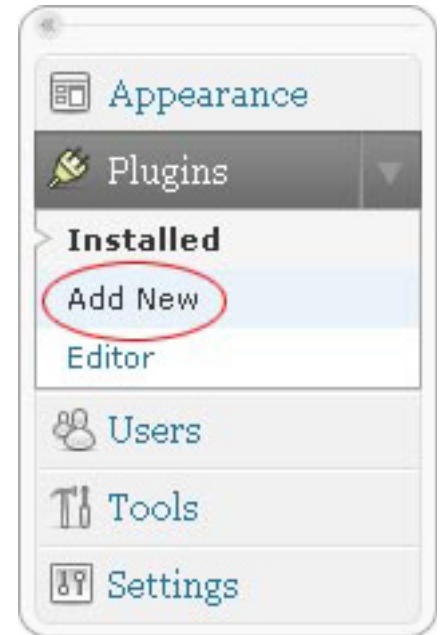

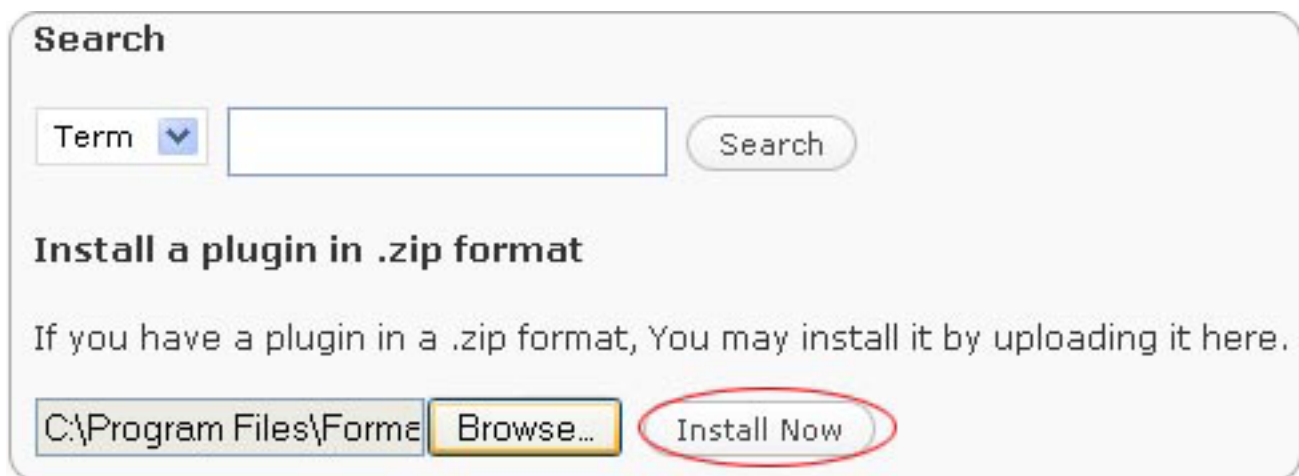

1.	Download the cleanprint plugin .zip to your local machine from the Format Dynamics website.
http://www.formatdynamics.com/wordpress-download.html

2.	Log into your WordPress installation as an administrator.

3.	On the navigation on the left hand side, click *Plugins*, then *Add New* from the menu.

4.	In the Install plugins pane, click the *Browse* button and select the Format Dynamics Cleanprint plugin zip file you downloaded in step 1. After you've selected it, click *Install Now.*

5.	After the plugin is installed, activate it via the *Activate Plugin* link located on the bottom of the installation success screen.

6.	Once activated you can see the new plugin from the *Manage Plugin* screen.
